ABOUT ME

A dedicated Software Engineer with a proven track record and a strong commitment to excellence. Recognized for a collaborative nature that enables effective teamwork and achievement of collective goals. Thrives in dynamic environments, consistently delivering positive results while embracing challenges. Enthusiastic about learning and continuously expanding skill sets to excel in the field.

PROFESSIONAL EXPERIENCE

OTIF — Data & Software Engineer(temporary contract)

Dec 2025 – May 2026 | Mty N.L

- Designed and engineered scalable data architectures and automated ETL pipelines using Node.js and Python to process high-volume multi-source data.
- Provisioned, configured, and managed cloud infrastructure using Google Cloud Platform (GCP) Compute Engine running Debian Linux Virtual Machines.
- Deployed centralized Data Warehouse schemas to structurally model, normalize, and analyze raw organizational inputs.
- Implemented an automated AI pipeline using Large Language Models (LLMs), optimizing API communication, prompt logic, and token usage.

SITIC — Analyst Developer

Jan 2025 – Nov 2025 | Torreón, COAH

- Designed, developed, and maintained robust features across microservices, micro-frontends, and shared libraries utilizing C# and JavaScript/TypeScript.
- Researched and successfully implemented Domain-Driven Design (DDD) clean architectures, improving modularity, maintainability, and code reusability across enterprise environments.
- Collaborated with cross-functional peers to implement and refine medium-to-high complexity user stories based on established organizational standards.
- Optimized data management pipelines and database scalability through expert writing of SQL Server stored procedures, advanced subqueries, scripts, and relational models.
- Managed sprint cycles, structured task scoping, and accelerated technical ticket resolution utilizing Jira.

Aldafa Transportes — IT Analyst

Apr 2023 – Aug 2024 | Torreón, COAH

- Spearheaded web and native software development initiatives utilizing JavaScript, TypeScript, C#, Node.js, PHP, and module federation architecture, delivering high-scalability systems adhering strictly to SOLID principles.
- Managed and resolved medium-high complexity production incidents through ServiceNow, safeguarding critical service continuity and reducing system downtime.
- Partnered closely with stakeholders and technical teams to conduct system flow analysis, analyze emerging technologies, and propose cost-effective strategic solutions.
- Engineered comprehensive automated verification mechanisms, performing strict unit and integration testing workflows to guarantee feature quality and minimize regression defects.

UTLD — Associate Intern

Jan 2021 – Dec 2022 | Cd. Lerdo, Dgo.

- Managed cloud infrastructure and deployed high-availability microservices leveraging AWS EC2 and Ubuntu server environments.
- Established automated software integration practices by defining and configuring CI/CD development pipelines with Jenkins.
- Gathered core business software requirements through direct reporting and discovery sessions with key organizational stakeholders.
- Refactored legacy applications built on .NET Framework 4.7, C#, Entity Framework, and JavaScript to enhance performance, maintainability, and data security.

TECHNICAL SKILLS

Programming Languages	C# Asp .Net razor, TypeScript, JavaScript, Python, PHP (7.2/7.4), HTML5, CSS
Frameworks & Libraries	React 18.2, Angular 14+, Node.js 17.0, Laravel 8, CodeIgniter 4, .NET Framework 4.7, Entity Framework, React Native, Redux/Toolkit, React-Bootstrap
DevOps & Cloud	Debian VM (CLI) (GCP) (Basic), AWS (EC2), GitHub Actions (Basic), Jenkins (Basic), Docker (Basic), Kubernetes (Basic), Git, NPM, ETL Pipelines, LLMs, Power BI (Basic)
Databases & Tools	SQL Server, Jest, Postman, Jira, ServiceNow
Architectures	Microservices, Domain-Driven Design (DDD), Module Federation, Micro-frontends, MVC, SOLID Principles

EDUCATION

Universidad Tecnológica de la Laguna de Durango Cd. Lerdo, Dgo.

Bachelor's Degree in Software Development and Management (ING) — Graduated: Dec 2022
Associate Degree in Information and Communication Technologies (Software Development focus) (TSU) — Graduated: Dec 2020
